JOURNAL OF SCIENTIFIC COMPUTING

Volume 20, Number 1 February 2004

CONTENTS

Spectral versus Pseudospectral Solutions of the Wave Equation by Waveform Relaxation Methods 1
*Z. Jackiewicz, B. D. Welfert, and B. Zubik-Kowal*

On Coordinate Transformations for Summation-by-Parts Operators 29
*M. Svärd*

Simulation Study of Aspects of the Classical Hydrogen Atom Interacting with Electromagnetic Radiation: Circular Orbits 43
*D. C. Cole and Y. Zou*

A Numerical Study on Large-Time Asymptotics of the Lifshitz–Slyozov System 69
*J. A. Carrillo and T. Goudon*

A Numerical Modeling of Rayleigh–Marangoni Steady Convection in a Non-Uniform Differentially Heated 3D Cavity 115
*E. Bucchignani and D. Mansutti*

TECHNICAL NOTE

Spectral (Finite) Volume Method for Conservation Laws on Unstructured Grids III: One Dimensional Systems and Partition Optimization 137
*Z. J. Wang and Y. Liu*

JOURNAL OF SCIENTIFIC COMPUTING

Volume 20, Number 2 April 2004

CONTENTS

Time Explicit Schemes and Spatial Finite Differences Splittings 159
*Jean-Paul Chehab and Bruno Costa*

The Mortar Finite Element Method for the Cardiac "Bidomain" Model of Extracellular Potential 191
*Micol Pennacchio*

Multiresolution Wavelet Based Adaptive Numerical Dissipation Control for High Order Methods 211
*B. Sjögreen and H. C. Yee*

Application of Multiblock Grid and Dual-Level Parallelism in Coastal Ocean Circulation Modeling 257
*Phu Luong, Clay P. Breshears, and Le N. Ly*

An Implementation of Fast Wavelet Galerkin Methods for Integral Equations of the Second Kind 277
*Weifu Fang, Yi Wang, and Yuesheng Xu*

# JOURNAL OF SCIENTIFIC COMPUTING

**Volume 20, Number 3** **June 2004**

## CONTENTS

Nonet-Cartesian Grid Method for Shock Flow Computations 303
*Ke Li and Zi-Niu Wu*

Adaptive Iteration to Steady State of Flow Problems 331
*Karl Hörnell and Per Lötstedt*

Spectral Discretizations of the Stokes Equations with Non Standard Boundary Conditions 355
*J. M. Bernard*

Simulation Study of Aspects of the Classical Hydrogen Atom Interacting with Electromagnetic Radiation: Elliptical Orbits 379
*Daniel C. Cole and Yi Zou*

Unstructured Grid-Based Discontinuous Galerkin Method for Broadband Electromagnetic Simulations 405
*Adour V. Kabakian, Vijaya Shankar, and William F. Hall*

Parameter Optimization and Reduction of Round Off Error for the Gegenbauer Reconstruction Method 433
*Anne Gelb*

Erratum 461
